

| Service | Plan | Description | Regular rate | Client rate |
|--------------------|-------------------------|---|--------------|-------------|
| Shared web hosting | Standard | 2 domains. 2 GB disk space. 30 GB transfer. CPU: Pentium 4 3 GHz Dual Core. OS: Linux – Cent OS. 2 MySQL databases. Daily backups. Free cPanel. | \$14.95/mo | \$9.95/mo |
| Shared web hosting | Webmaster | 3 domains. 3 GB disk space. 45 GB transfer. CPU: Pentium 4 3 GHz Dual Core. OS: Linux – Cent OS. 3 MySQL databases. Daily backups. Free cPanel. | \$19.95/mo | \$14.95/mo |
| Shared web hosting | Pro | 5 domains. 5 GB disk space. 45 GB transfer. CPU: Pentium 4 3 GHz Dual Core. OS: Linux – Cent OS. 5 MySQL databases. Daily backups. Free cPanel. | \$24.95/mo | \$19.95/mo |
| Custom web design | Basic | Site template customization. Small projects (3-5 pages) average 20 man-hours. Finished product is a ready-to-publish website (HTML, CSS and image files). Content/data entry not included. | \$80/hr | \$60/hr |
| Custom web design | Standard | Custom design of home page and inside pages. Project averages* 40 man-hours. Includes 2 mockups. Finished product is a ready-to-publish website (HTML, CSS and image files). Content/data entry not included. | \$100/hr | \$80/hr |
| Custom web design | Pro | Extensive custom design of home page and inside pages. Project averages* 60 man-hours. Includes 3 mockups. Finished product is a ready-to-publish website (HTML, CSS and image files). Content/data entry not included. | \$125/hr | \$100/hr |
| Web programming | Standard ¹ | Custom projects only. Programming in PHP, ASP, .NET and JSP. Ajax technology (asynchronous data exchange with server without reloading web page). JavaScript applications. MySQL or MS SQL databases. All projects man-time estimates are custom and based on project complexity. | \$80/hr | \$60/hr |
| Web programming | E-commerce ² | Custom projects only. Same as Standard plus integrating of shopping carts and on-line payments. All projects man-time estimates are custom and based on project complexity. | \$100/hr | \$80/hr |
| Flash design | Standard ³ | Animated graphics for your website. All projects are custom. | Custom | Custom |
| Flash design | Advanced ⁴ | Interactive Flash applications (data exchange with server and users). All projects are custom. | Custom | Custom |
| Site maintenance | Basic | Changing images or content on the website. Adding pages (to static websites only). For changing site layout see “Custom web design”. | \$75/hr | \$55/hr |
| Logo design | Basic | Includes 3 initial concepts and 2 changes to the logo draft. Result is a logo in any computer graphics format and a PDF logo book with recommended application of the logo. | Custom | Custom |
| Logo design | Advanced | Includes 10 initial concepts and 2 changes to the logo draft. Result is a logo in any computer graphics format and a PDF logo book with recommended application of the logo. | Custom | Custom |

¹**Sample applications:** Any website that handles database and dynamic interaction with users – corporate site, blog, catalog, CRM etc.

²**Sample applications:** On-line stores, paid subscription, paid downloads etc.

³**Sample applications:** Flash intros, animated menus, slideshows, banners etc.

⁴**Sample applications:** Interactive manuals/tutorials, charts, CRM, Flash games etc.

*All custom services are priced based on number of tasks, their complexity, our efforts (in man-time) and our base rate. Average man-time is given for reference only. Actual project man-hours will be multiplied by complexity rate (e.g. 1 for easy, 2 for fairly complex, etc.). Therefore we can give an accurate quote for the project only after careful evaluation of the project scope.
